

## Batteries and Accessories

No.	Part No.	Description	Year
1	188002S	Shell: Use 188002B or 188002BV battery	32-53
<p><b>Note:</b> Kiwi battery shells are the most authentic shells made including the removable lid so they cannot be told apart from the real original battery. Kiwi shells have the Indian script on them as they are a legally licenced product. Shells are made by hi-end injection molding in order to obtain the fine detailed external arrow heads of the original. Kiwi shells withstand the engines temperature and pressure from the battery clamp. And yes they have even tested by me in Death Valley's to 130 degrees. Kiwi shells out perform all competitors hands down.</p>			
2	188002B	Battery: Use w/188002S shell, 6v	32-53
3	188002BV	Battery: Use w/188002S shell, 12v	32-53
4	188002VES	Battery: To be used with electric starter kit, 12v	32-53
<p><b>Note:</b> Kiwi batteries are genuine hi quality Yuasa brand, the best money can buy for your Indian. While others sell cheap batteries which are just that, CHEAP and fail. We sell quality. Batteries are supplied dry charged and are shipped without acid.</p>			
<p><b>WARNING:</b> Do NOT use Lithium batteries in your Indian with original Autolite generators as it will cause a catastrophic melt down of your Indian.</p>			
5	74697	Cradle: Battery	35-39
6	75563	Cradle: Battery	40-51
7	75563T	Sheetmetal Tray: Battery cradle	40-51
<p><b>Note:</b> 52-53 models have the battery cradle built in as part of the frame</p>			
8	75563K	Bolt Kit: Cradle to frame	40-51
9	38770	Mat: Battery	32-53
10	75540	Clamp: Battery hold down	40-53
11	45108	Bolt: Battery clamp hold down	40-53
12	38441	Straps: Battery, pr	33-39
13	38445	Bolt & wing nut: Battery strap pinch	33-39
14	188002CY	Battery tender type charger: 6v	all
15	188002CYV	Battery tender type charger: 12v	all
16	KI-10307	Circuit Breaker: 6v & 12v	all
17	KI10308	Bracket: Circuit breaker to primary bolt	all
18	27B153	Wire: Battery negative to circuit breaker	36-53
